Twitter CEO commits to fixing the platform's 'toxic' content problem, but gives no timetable

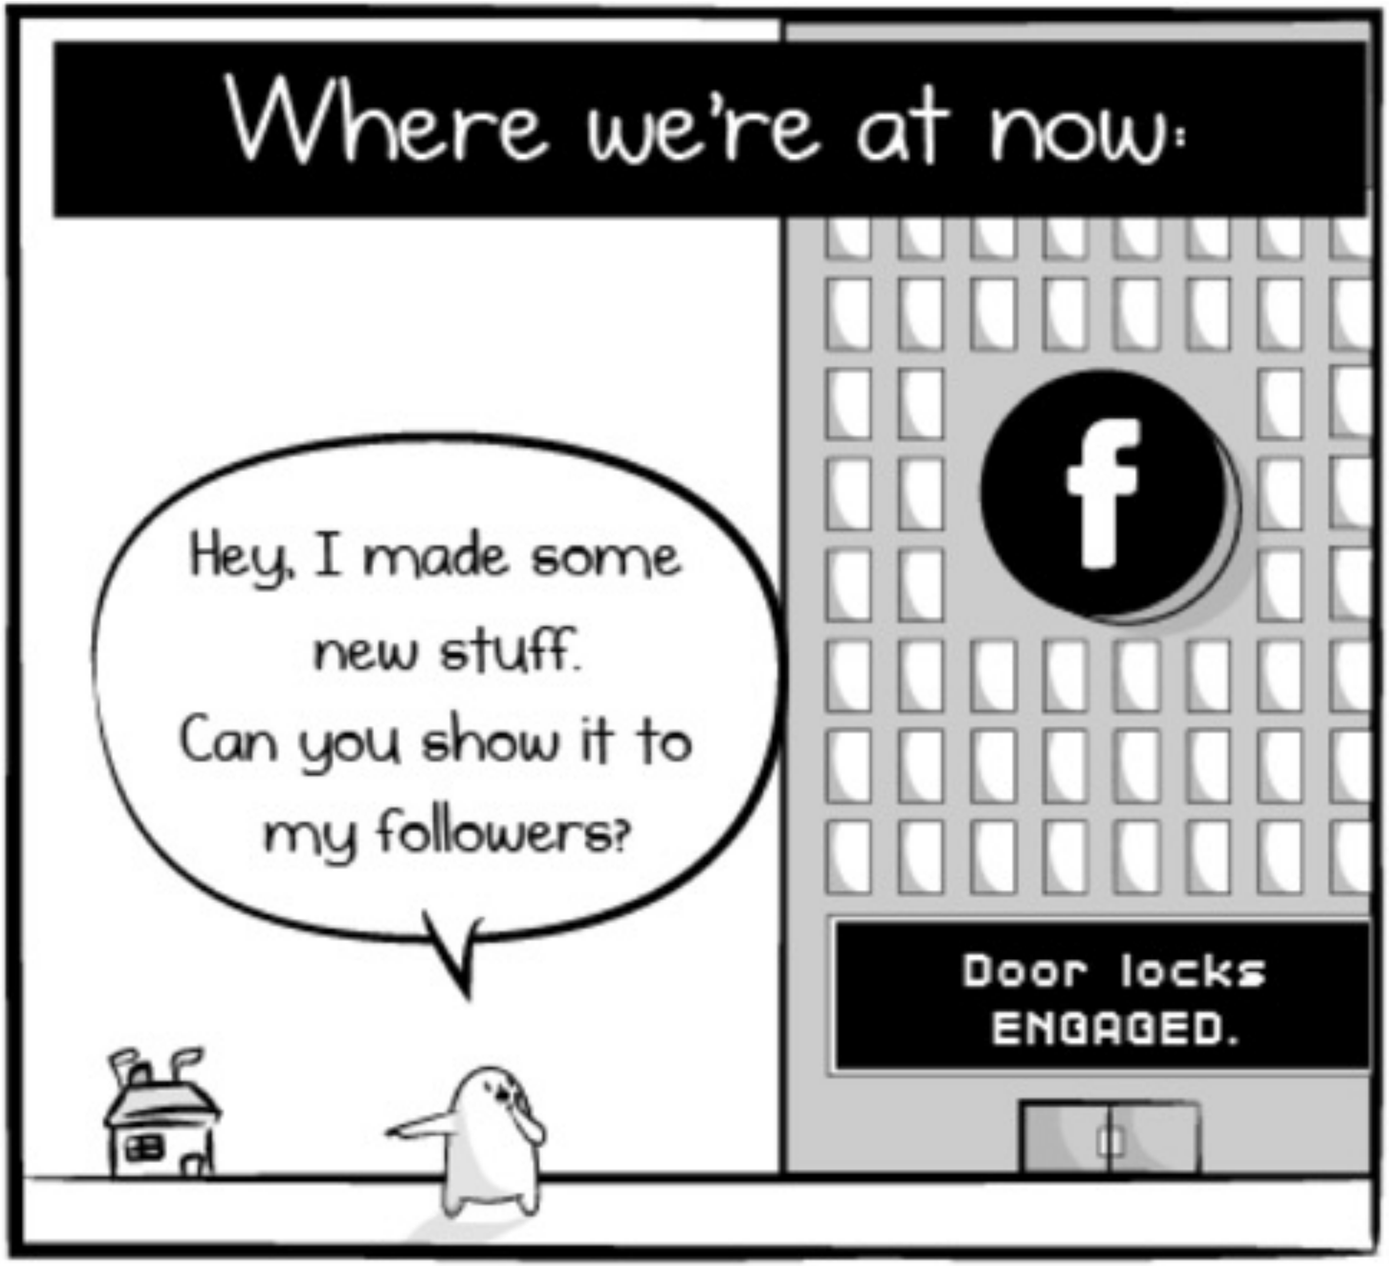

EN DAN NOG DIT...

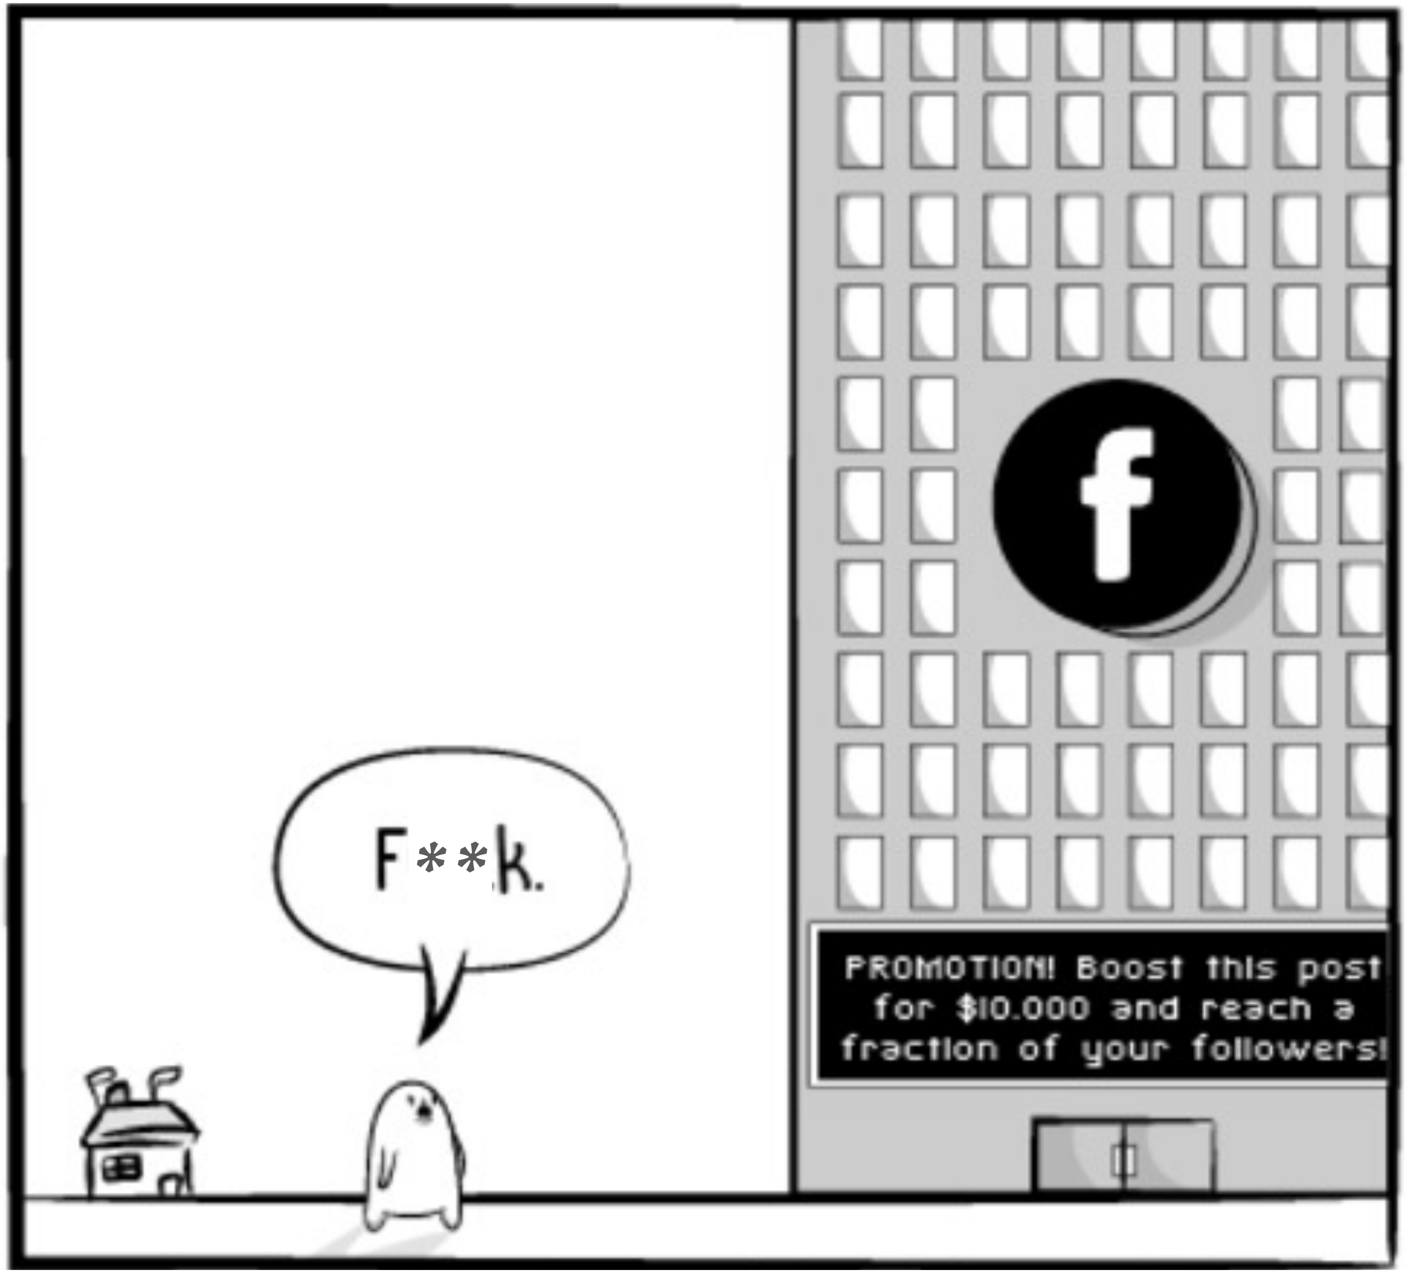

Reaching people on the internet.

How it used to be:
Come on over! I've got some neat stuff here.
Email
RSS
Matt's Website

What happened:
Actually, follow me over there. It'll be easier for us to reach each other.
Welcome, new active users!

Where we're at now:
Hey, I made some new stuff. Can you show it to my followers?
Door locks ENGAGED.

F**k.
PROMOTION! Boost this post for $10.000 and reach a fraction of your followers!

THE CYCLE

Uitvinders ontdekken een nieuwe technologie

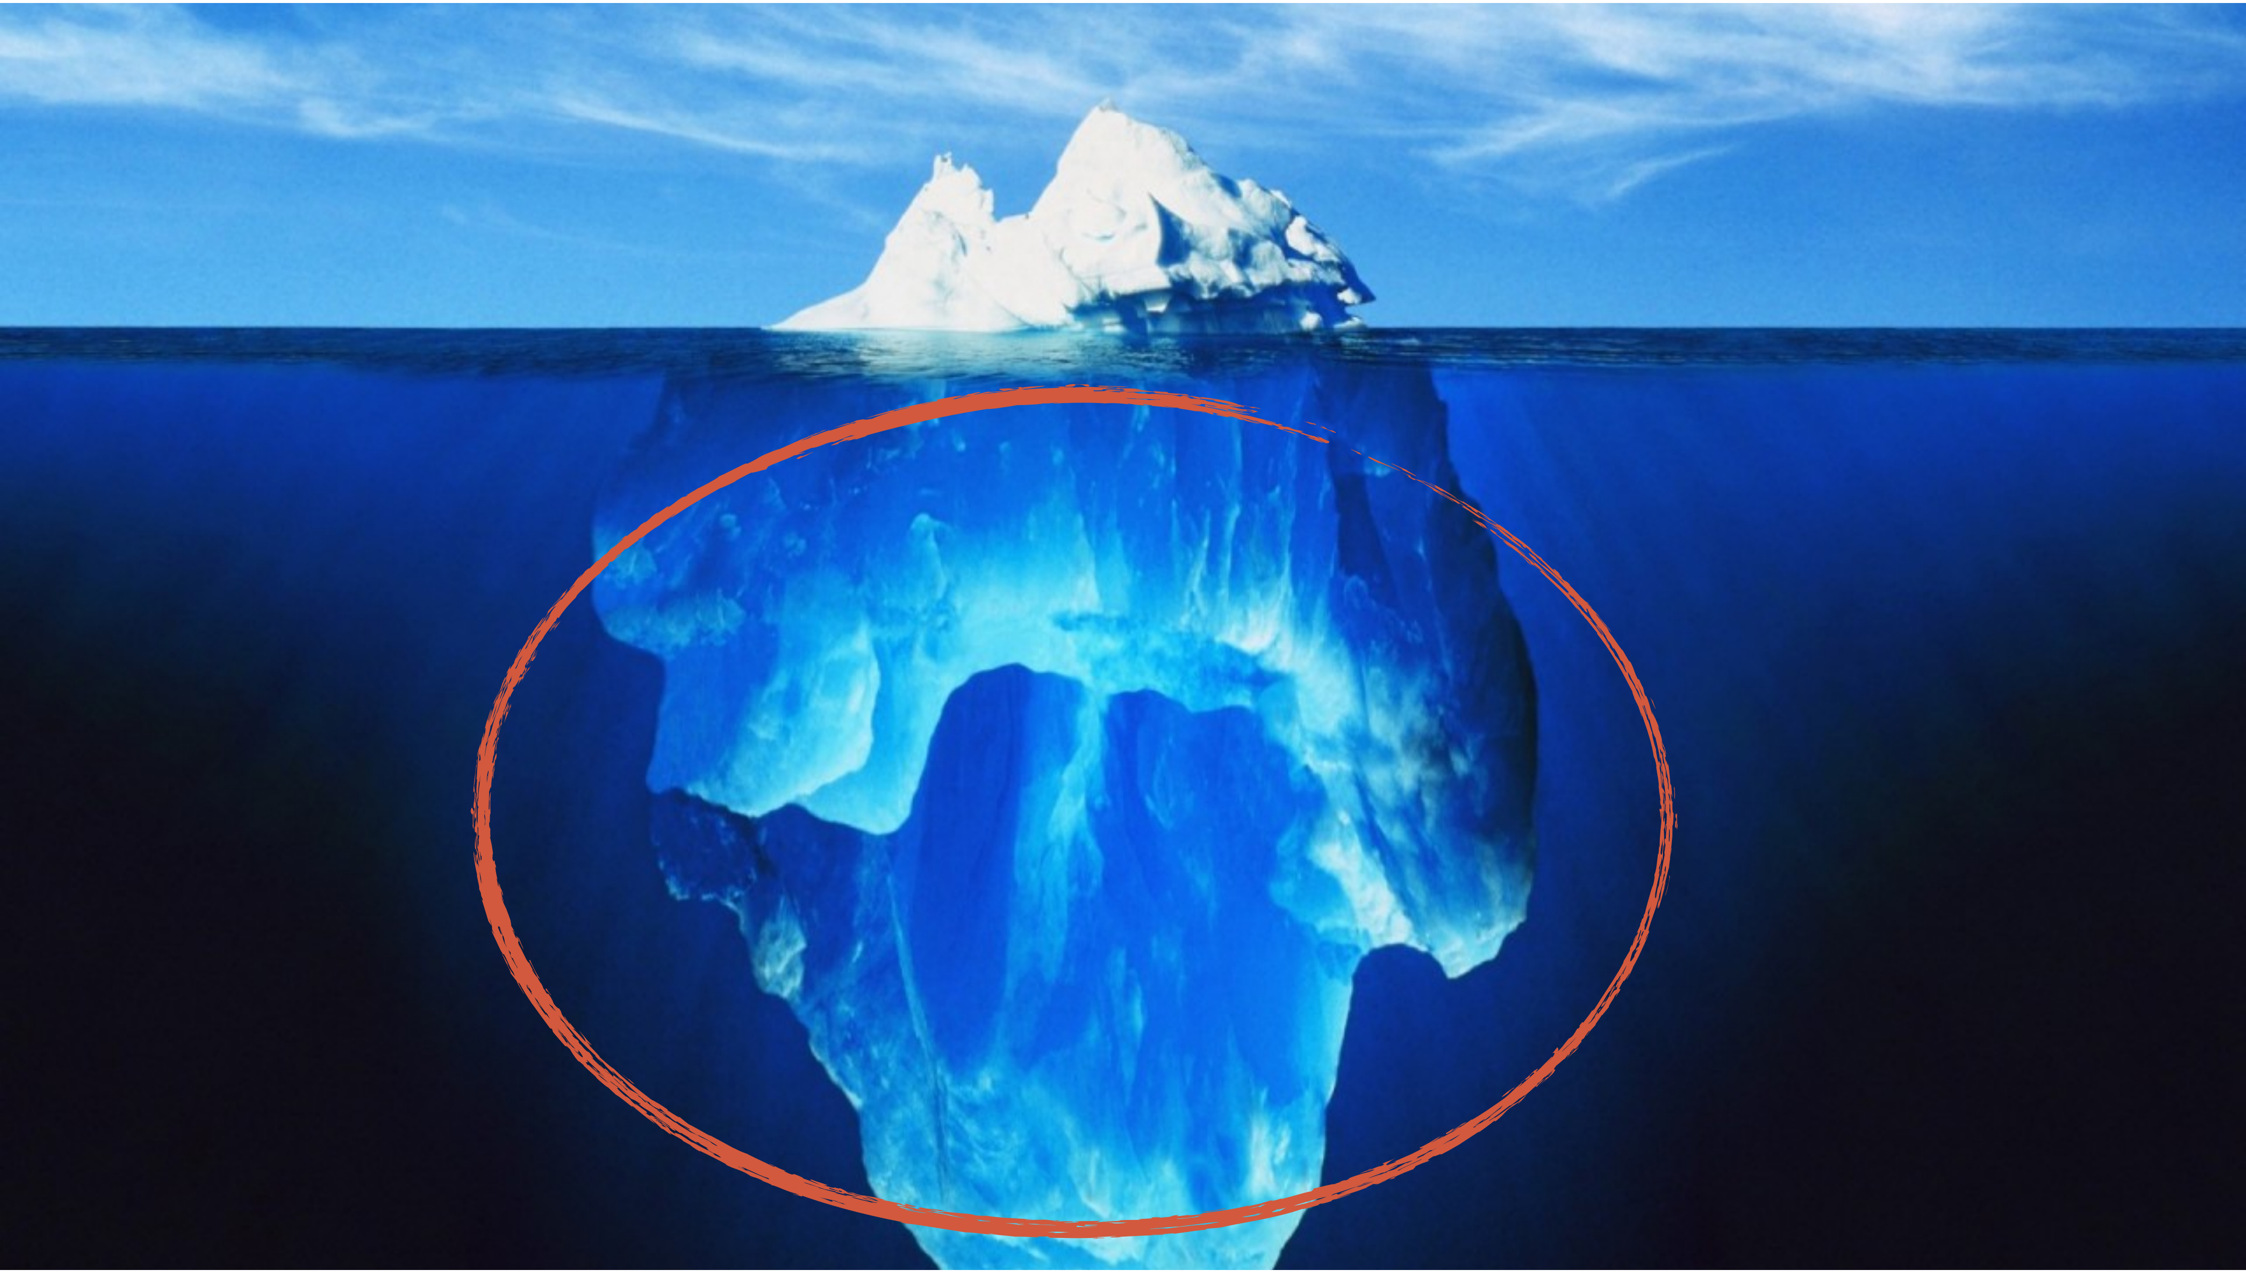

Hobbyisten spelen er mee, makken applicaties en populariseren de technologie

Bedrijven ontdekken het, commercialiseren en verfijnen de technologie

Bedrijven beïnvloeden de overheid voor regulatie en zorgen voor een "natuurlijk monopolie"

Nieuwe technologie ontregelt oude technologie

VAN CENTRAAL NAAR DECENTRAAL

Met je Facebook account iemand op Twitter een bericht sturen?

Of via LinkedIn een Instagram account volgen?

Terwijl...

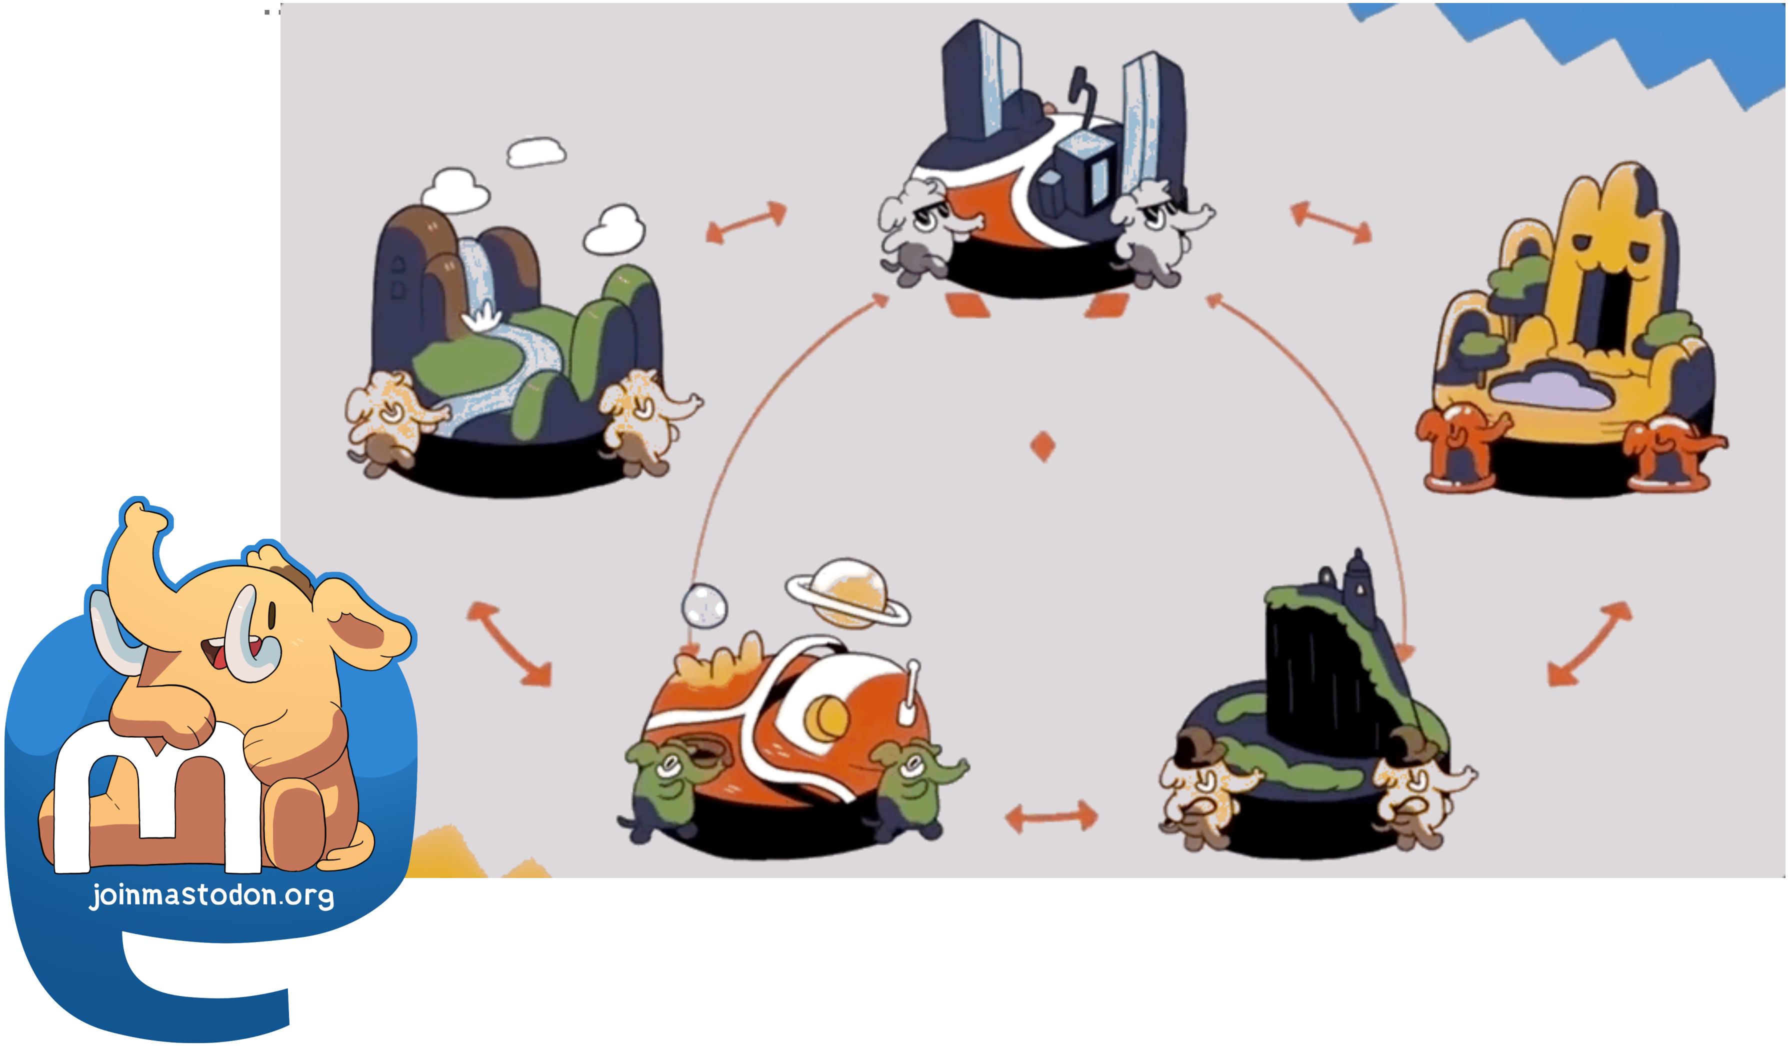

```
from: webmaster@amnesty.nl
to: webmaster@utrecht.nl
cc: webmaster@whitehouse.gov; webmaster@tweedekamer.nl
```

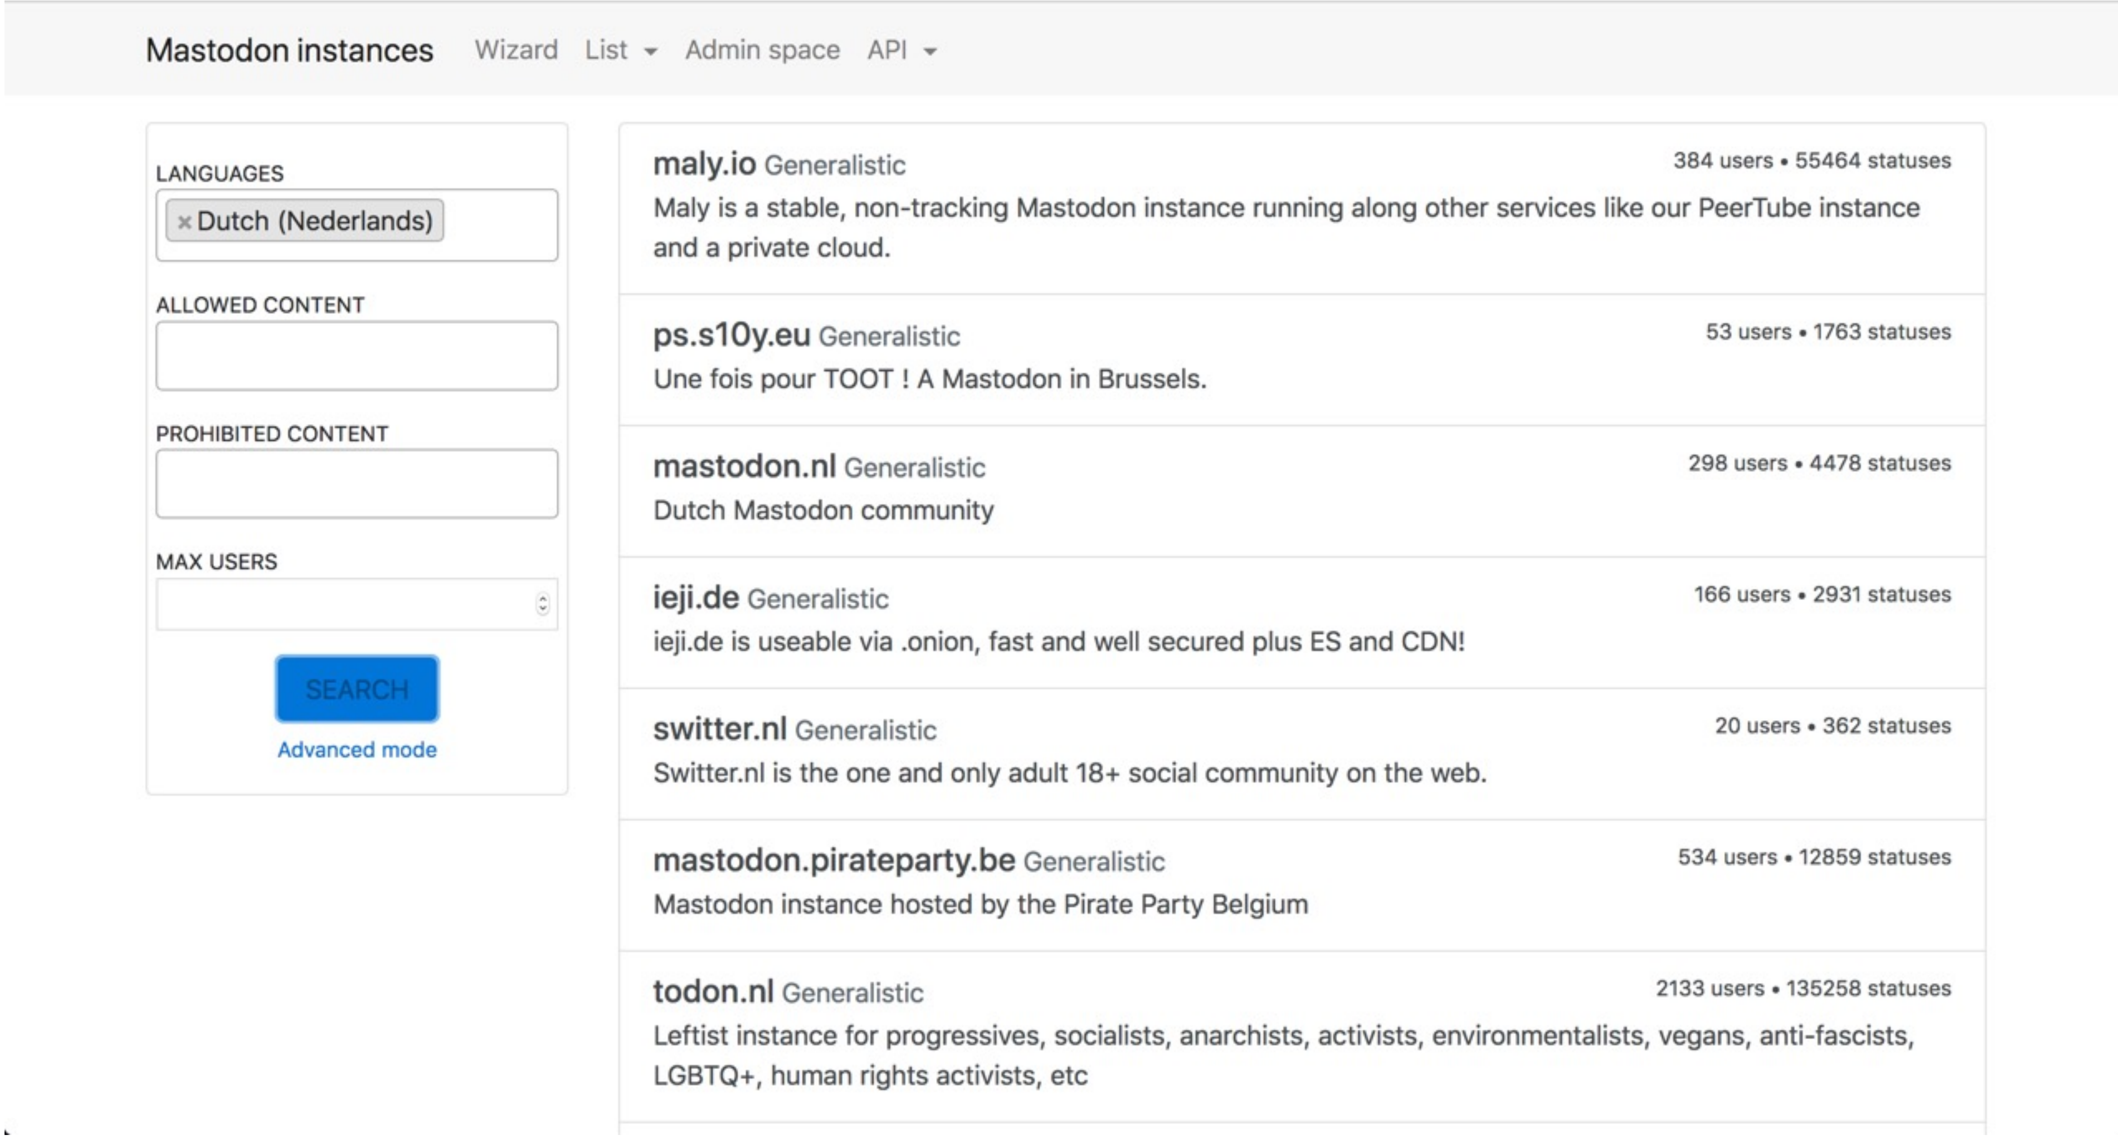

"NIEUWE" PRINCIPES

A people-focused alternative to the "corporate web".

- Je data is van jou
- Los je eigen problemen op, samen.
- Gebruik wat je samen maakt
- Open Source
- Duurzaamheid
- Pluraliteit
- Geen silo's maar een ecosysteem

VOORBEELDEN VAN NIEUWE NETWERKEN EN MOGELIJKHEDEN

Behold! The Frankstodon Instance has arisen!

Mastodon op me.frankmeeuwsen.xyz

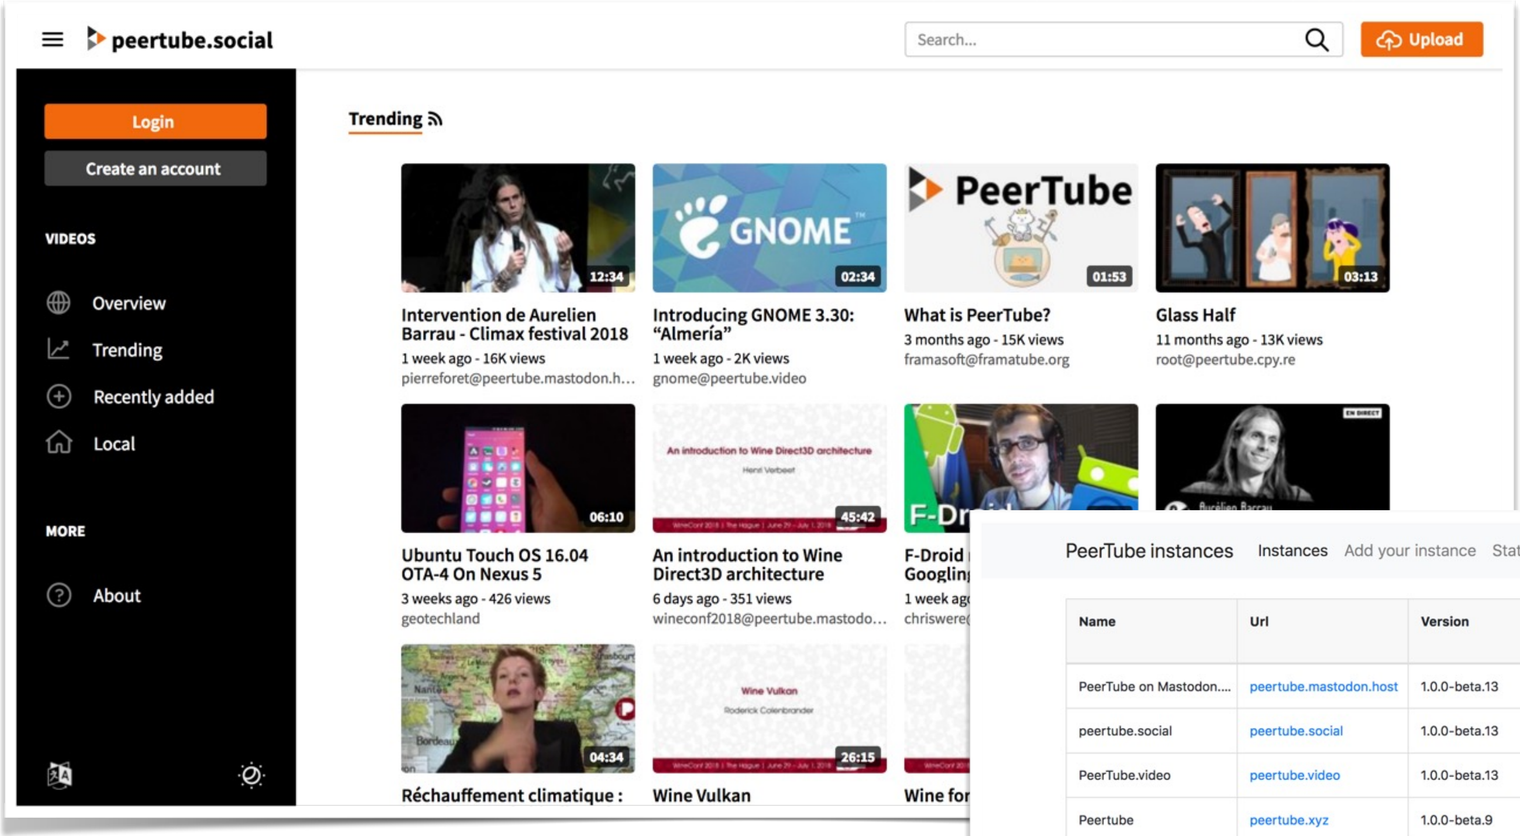

This is the personal federated server of Frank Meeuwsen. You don't need to be on a big server to take part in the fediverse. That's why I try this on my own instance. Why? Read Laura Kalbag's post why you too can have your own instance. Running your own instance is not free, but it could be worth it...

ALTERNATIEVEN VOOR BESTAANDE DIENSTEN

- Twitter, Facebook > **Mastodon, GnuSocial, StatusNet**
- Youtube > **PeerTube**
- Spotify > **Funk.Whale (nog niet live)**
- Instagram > **Pixelfed (beta)**

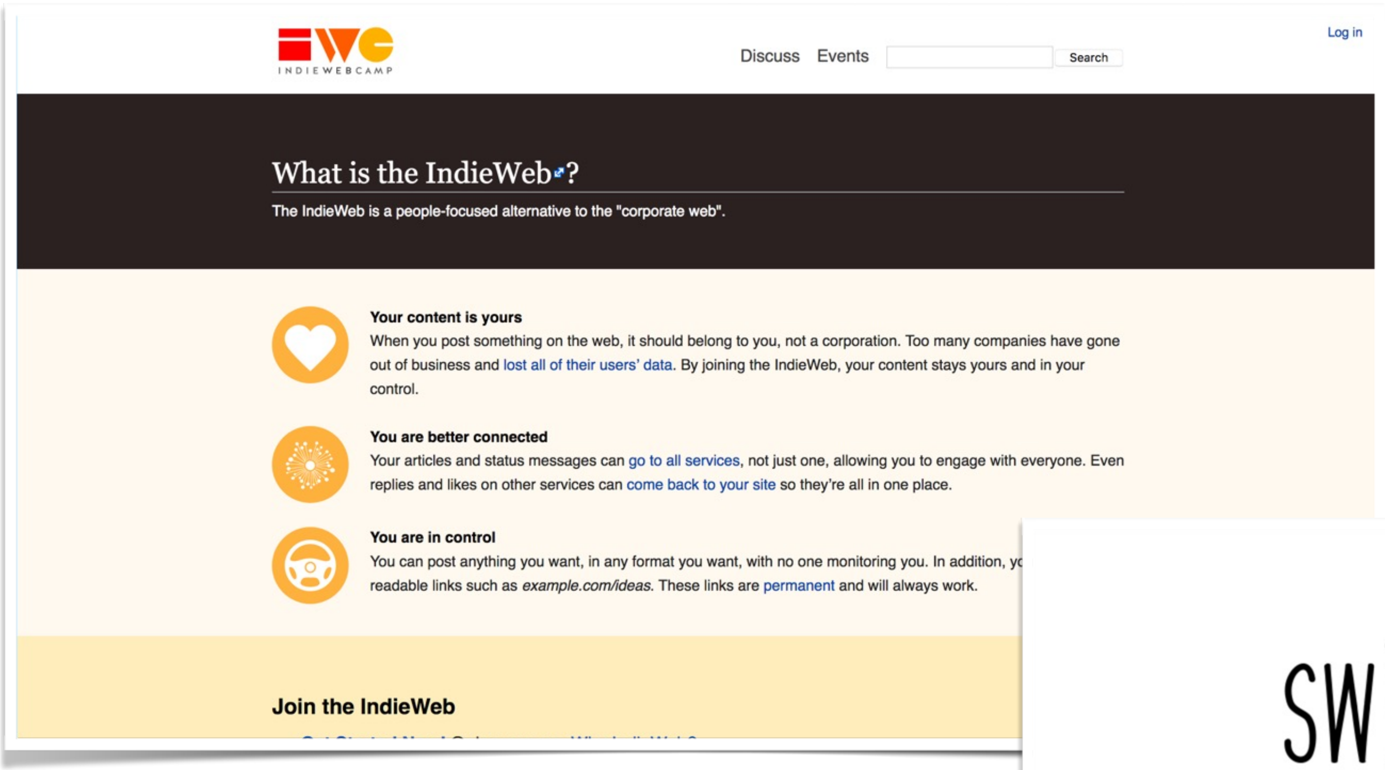

- Gmail > **ProtonMail**
- Whatsapp > **Signal**
- Google > **DuckDuckGo/Startpage**
- Chrome > **Firefox**

KENMERKEN

- ➤Geen centrale eigenaar
- ➤Geen silo van data
- ➤Onderliggende protocollen maken uitwisseling mogelijk
- ➤Je eigen site/domein is je persoonlijkheid

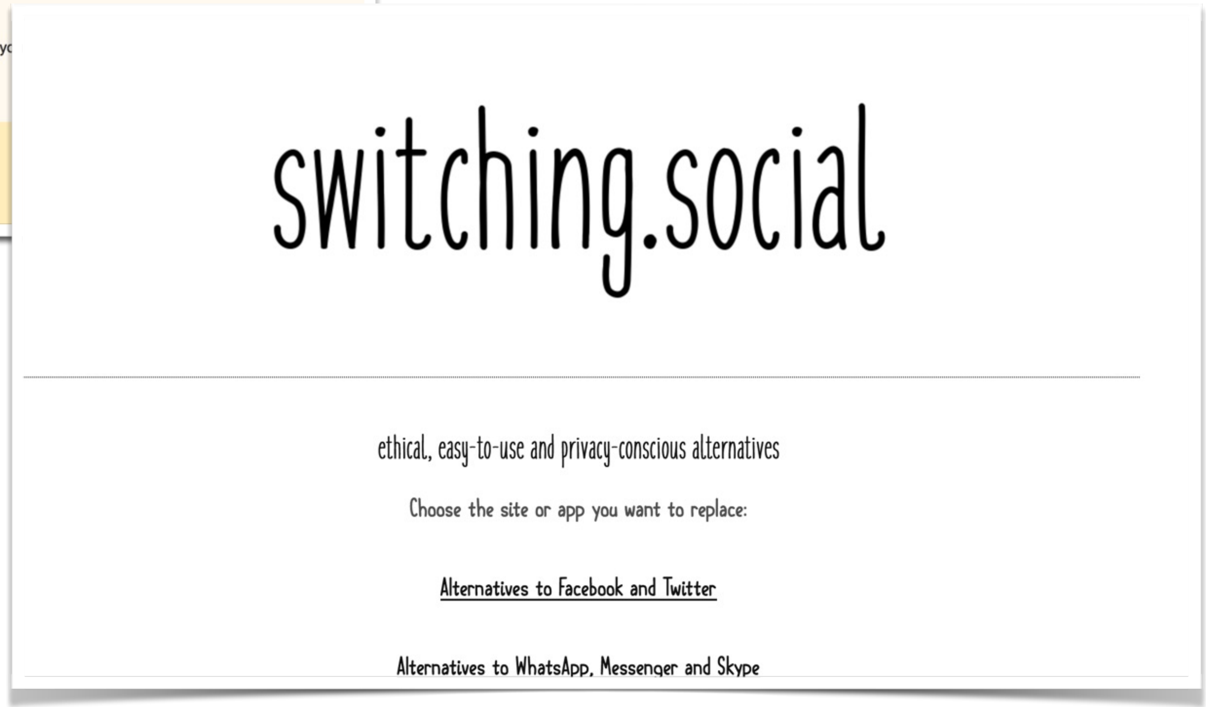

UITDAGINGEN

- Decentralisatie is lastig concept
- Adoptie van nieuwe ideeën rondom federatie
- Verantwoordelijkheid van de eindgebruiker (beveiliging, privacy, trolling)
- Vertrouwen in webmaster
- Mobiel versus desktop
- Juridische barrières
- Financiële barrières
- Reuzenstappen te nemen op UX/gemak/verwachting
